answer key detailed explanations of answers practice test 6 answer key detailed explanations of answers the periodic table excerpt about research education association research education association rea is an organization of educators scientists and engineers specializing in various academic fields founded in 1959 with the purpose of disseminating the most recently developed scientific information to groups in industry government high schools and universities rea has since become a successful and highly respected publisher of study aids test preps handbooks and reference works rea s test preparation series includes study guides for all academic levels in almost all disciplines research education association publishes test preps for students who have not yet completed high school as well as high school students preparing to enter college students from countries around the world seeking to attend college in the united states will find the assistance they need in rea s publications for college students seeking advanced degrees rea publishes test preps for many major graduate school admission examinations in a wide variety of disciplines including engineering law and medicine students at every level in every field with every ambition can find what they are looking for among rea s publications while most test preparation books present practice tests that bear little resemblance to the actual exams rea s series presents tests that accurately depict the official exams in both degree of difficulty and types of questions rea s practice tests are always based upon the most recently administered exams and include every type of question that can be expected on the actual exams rea s publications and educational materials are highly regarded and continually receive an unprecedented amount of praise from professionals instructors librarians parents and students our authors are as diverse as the fields represented in the books we publish they are well known in their respective disciplines and serve on the faculties of prestigious high schools colleges and universities throughout the united states and canada chapter 1 about the sat ii chemistry subject test about this book this book provides you with an accurate and complete representation of the sat ii chemistry subject test inside you will find a complete course review designed to provide you with the information and strategies needed to do well on the exam as well as six practice tests based on the actual exam the practice tests contain every type of question that you can expect to appear on the sat ii chemistry test following each test you will find an answer key with detailed explanations designed to help you master the

test material about the test who takes the test and what is it used for students planning to attend college take the sat ii chemistry subject test for one of two reasons 1 because it is an admission requirement of the college or university to which they are applying or 2 to demonstrate proficiency in chemistry the sat ii chemistry exam is designed for students who have taken one year of college preparatory chemistry who administers the test the sat ii chemistry subject test is developed by the college board and administered by educational testing service ets the test development process involves the assistance of educators throughout the country and is designed and implemented to ensure that the content and difficulty level of the test are appropriate when should the sat ii chemistry be taken if you are applying to a college that requires subject test scores as part of the admissions process you should take the sat ii chemistry subject test toward the end of your junior year or at the beginning of your senior year if your scores are being used only for placement purposes you may be able to take the test in the spring of your senior year for more information be sure to contact the colleges to which you are applying when and where is the test given the sat ii chemistry subject test is administered five times a year at many locations throughout the country mostly high schools to receive information on upcoming administrations of the exam consult the publication taking the sat ii subject tests which may be obtained from your guidance counselor or by contacting college board sat program p o box 6200 princeton nj 08541 6200 phone 609 771 7600 website collegeboard com is there a registration fee yes there is a registration fee to take the sat ii chemistry consult the publication taking the sat ii subject tests for information on the fee structure financial assistance may be granted in certain situations to find out if you qualify and to register for assistance contact your academic advisor how to use this book what do i study first remember that the sat ii chemistry subject test is designed to test knowledge that has been acquired throughout your education therefore the best way to prepare for the exam is to refresh yourself by thoroughly studying our review material and taking the sample tests provided in this book they will familiarize you with the types of questions directions and format of the sat ii chemistry subject test to begin your studies read over the review and the suggestions for test taking take one of the practice tests to determine your areas of weakness and then restudy the review material focusing on your specific problem areas the course review includes the information you need to know when taking the exam be sure to take the remaining practice tests to further test yourself and become familiar with the format of the sat ii chemistry subject test when should i start studying it is never too early to start studying for the sat ii chemistry test the earlier you begin the more time you will have to sharpen your skills do not procrastinate cramming is not an effective way to study since it does not allow you the time needed to learn the test material the sooner you learn the format of the exam the more comfortable you will be when you take the exam format of the sat ii chemistry the sat ii chemistry is a one hour exam consisting of 85 multiple choice questions the first part of the exam consists of classification questions this question type presents a list of statements or questions that you must match up with a group of choices lettered a through e each choice may be used once more than once or not at all the exam then shifts to relationship analysis questions which you will answer in a specially numbered section of your answer sheet you will have to determine if each of two statements is true or false and if the second statement is a correct explanation of the first the last section is composed strictly of multiple choice questions with choices lettered a through e material tested the following chart summarizes the distribution of topics covered on the sat ii chemistry subject test topic percentage number of questions atomic molecular structure 25 21 questions states of matter 15 13 questions reaction types 14 12 questions stoichiometry 12 10 questions equilibrium reaction times 7 6 questions thermodynamics 6 5 questions descriptive chemistry 13 11 questions laboratory 8 7 questions the questions on the sat ii chemistry are also grouped into three larger categories according to how they test your understanding of the subject material category definition approximate percentage of test 1 factual recall demonstrating a knowledge and understanding of important concepts and specific information 20 2 application taking a specific principle and applying it to a practical situation 45 3 integration inferring information and drawing conclusions from particular relationships 35 studying for the sat ii chemistry it is very important to choose the time and place for studying that works best for you some students may set aside a certain number of hours every morning to study while others may choose to study at night before going to sleep other students may study during the day while waiting on line or even while eating lunch only you can determine when and where your study time will be most effective be consistent and use your time wisely work out a study routine and stick to it when you take the practice tests try to make your testing conditions as much like the actual test as possible turn your television and radio off and sit down at a quiet desk or table free from distraction make sure to

clock yourself with a timer as you complete each practice test score it and thoroughly review the explanations to the questions you answered incorrectly however do not review too much at any one time concentrate on one problem area at a time by reviewing the questions and explanations and by studying our review until you are confident you completely understand the material keep track of your scores by doing so you will be able to gauge your progress and discover general weaknesses in particular sections you should carefully study the reviews that cover your areas of difficulty as this will build your skills in those areas test taking tips although you may be unfamiliar with standardized tests such as the sat ii chemistry subject test there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties become comfortable with the format of the exam when you are practicing to take the sat ii chemistry subject test simulate the conditions under which you will be taking the actual test stay calm and pace yourself after simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual exam with much more confidence know the directions and format for each section of the test familiarizing yourself with the directions and format of the exam will not only save you time but will also ensure that you are familiar enough with the sat ii chemistry subject test to avoid nervousness and the mistakes caused by being nervous do your scratchwork in the margins of the test booklet you will not be given scrap paper during the exam and you may not perform scratchwork on your answer sheet space is provided in your test booklet to do any necessary work or draw diagrams if you are unsure of an answer guess however if you do guess guess wisely use the process of elimination by going through each answer to a question and ruling out as many of the answer choices as possible by eliminating three answer choices you give yourself a fifty fifty chance of answering correctly since there will only be two choices left from which to make your guess mark your answers in the appropriate spaces on the answer sheet fill in the oval that corresponds to your answer darkly completely and neatly you can change your answer but remember to completely erase your old answer any stray lines or unnecessary marks may cause the machine to score your answer incorrectly when you have finished working on a section you may want to go back and check to make sure your answers correspond to the correct questions marking one answer in the wrong space will throw off the rest of your test whether it is graded by machine or by hand you don't have to answer every question you are not penalized if you do not answer every question the only penalty results from answering a question incorrectly try to use the guessing strategy but if you are truly stumped by a question remember that you do not have to answer it work quickly and steadily you have a limited amount of time to work on each section so you need to work quickly and steadily avoid focusing on one problem for too long before the test make sure you know where your test center is well in advance of your test day so you do not get lost on the day of the test on the night before the test gather together the materials you will need the next day your admission ticket two forms of identification e.g. driver's license student identification card or current alien registration card two no. 2 pencils with erasers directions to the test center a watch if you wish but not one that makes noise as it may disturb other test takers on the day of the test you should wake up early after a good night's rest and have breakfast dress comfortably so that you are not distracted by being too hot or too cold while taking the test also plan to arrive at the test center early this will allow you to collect your thoughts and relax before the test and will also spare you the stress of being late if you arrive after the test begins you will not be admitted to the test center and you will not receive a refund during the test when you arrive at the test center try to find a seat where you feel most comfortable follow all the rules and instructions given by the test supervisor if you do not you risk being dismissed from the test and having your scores canceled once all the test materials are passed out the test instructor will give you directions for filling out your answer sheet fill this sheet out carefully since this information will appear on your score report after the test when you have completed the sat ii chemistry subject test you may hand in your test materials and leave then go home and relax when will i receive my score report and what will it look like you should receive your score report about five weeks after you take the test this report will include your scores percentile ranks and interpretive information authentic examination papers from cambridge assessment english provide perfect practice because they are exactly like the real exam inside b2 first for schools 4 you'll find four complete examination papers from cambridge assessment english be confident on exam day by working through each part of the exam so you can familiarise yourself with the format and practise your exam technique this book does not contain the audio recordings answer keys sample writing answers or speaking test scripts a student's book with answers with audio with resource bank is available separately richmond practice tests for ielts student's book with answers the new edition of

physiology pretest simulates the usmle step 1 test taking experience by including 100 v style questions and clinical images a required course at medical schools it is a core subject area that students need to fully understand pretest assesses students medical knowledge of core basic science topics within a clinical context through multiple choice clinical vignette questions this is helpful now that core basic sciences are taught in an integrated curriculum to ensure that questions are representative of the style and level of difficulty of the exams each pretest book is reviewed by students who either recently passed their shelf course exam and or step 1 the new shsat ela workbook includes 6 full length ela shsat practice tests very similar pattern as the actual test thorough explanations of the questions with easy english topics editing revising reading comprehension poetry questions this book will allow the student to understand the pattern of the actual shsat ela section students can work on their timing and check their performance a thorough study of each test is recommended 4□□□□□□□□□□ □□□□ □□□□□□□□□□ ielts□□□□ □□□□□ □□□□□□□□□□ □□□ □□□□□□□ □□□□□□□□□□ielts□□□□ objective pet provides exam preparation and practice for the pet exam the objective pet for schools practice test booklet without answers provides two practice tests for cambridge esol s new pet for schools exam launched in march 2009 it may be used in conjunction with objective pet or any other pet level course in order to familiarise students with the test format and content college biology college biology multiple choice questions and answers mcqs quizzes practice tests with answer key provides practice tests for competitive exams preparation college biology mcq helps with theoretical conceptual and weathered pieces of rocks and weathering of rocks practice sound and hearing mcq pdf book chapter 12 test to solve mcq questions hearing sounds pitch and loudness practice tests for the toefl ibt contains four full length tests with answer keys and audio scripts perfect for self study and classrooms each toefl ibt practice test reflects the design of the official toefl internet based test tests academic english language proficiency expected of university students in the united states canada australia new zealand ireland scotland and england provides extra practice before you take the official toefl ibt will help you identify those areas of academic english you need to improve for a higher toefl ibt score will give you an unofficial toefl ibt range score within a 10 point range peterson s master the sat practice test 4 offers readers a full length practice test with answer explanations for each question this full length sat practice test covers the critical reading writing including the essay and math sections the easy to read answer key with detailed answer explanations helps test takers figure out the most effective study plan for mastering the sat master the sat practice test 4 is part of master the sat 2011 which offers readers 6 full length practice tests and in depth review of the critical reading writing and math sections as well as top test taking tips to score high on the sat contains practice material for the international english language test system practice and pass the phr sphr shrm cp and shrm scp with 500 current and relevant hr certification practice questions with answers this 2018 compliant phr sphr shrm cp and shrm scp study resource contains 500 challenging practice test questions with answers highlighted the 500 phr sphr shrm cp and shrm scp practice tests were prepared with effective test taking strategies to ensure candidates pass at a high score and succeed in their hr certification pursuits this study guide of practice questions contains full practice tests that have been proven to be effective in ensuring hr candidates succeed at earning the phr sphr shrm cp and shrm scp relevant for the 2018 updated phr and sphr certification exam disclaimer this book and its author are not affiliated with or endorsed by the hrci accordingly hrci has no representation regarding the content of this study material make sure you re studying with the most up to date prep materials look for the newest edition of this title princeton review ged test prep 2021 isbn 9780525569398 on sale june 2020 publisher s note products purchased from third party sellers are not guaranteed by the publisher for quality or authenticity and may not include access to online tests or materials included with the original product offering extra preparation to help achieve an excellent score on the sat this comprehensive study guide provides 10 full length practice tests with detailed answer explanations as well as hands on exposure to the test with more than 1 500 questions nine sample prompts for the optional essay and one experimental section original the michigan english test met is a standardized international examination designed by michigan language assessment and aimed at upper beginner to advanced levels a2 to c1 of the common european framework of reference for languages the test assesses general english language proficiency in educational social and workplace contexts the met is intended for adults and adolescents at or above a secondary level of education who want to measure their general english language proficiency in a variety of linguistic contexts the test results can be used for educational purposes such as when finishing an english language course or for employment purposes like when applying for a job or pursuing a promotion that requires an english language qualification the official met

practice test book is the first book to provide actual practice tests for students preparing to take the met the official met practice test book with answers designed for self study information about the classroom edition can be found at [press.umich.edu/11390089](http://press.umich.edu/11390089) official met practice test book classroom edition includes 4 complete practice tests listening reading and grammar writing 4 sets of speaking test prompts tips for practicing the different sections of the tests a progress tracking log for recording practice test scores selected practice test vocabulary lists answer keys audio transcripts for the listening section writing test responses with commentary for two of the tests examiner scripts for the speaking test actual test form instructions and a sample answer sheet the audio for the listening section can be accessed at [press.umich.edu/elt/composite/met](http://press.umich.edu/elt/composite/met) for more information about the met go to [michiganassessment.org](http://michiganassessment.org)

## ***Objective First For Schools Practice Test Booklet Without Answers***

2011-09-05

the cambridge english first for schools exam has the same format and level as the existing first certificate in english exam but the content and treatment of topics are targeted at younger learners the objective first for schools practice test booklet without answers provides two complete practice tests for the first for schools exam students can use these tests on their own or with a teacher it is an ideal supplement to any first certificate level material for those who would like to familiarise themselves with the format of the first for schools exam

## **Practice Tests in Verbal Reasoning**

2013-02-04

if you are about to take a college entrance examination attend an interview or are being considered for promotion or further training this book will be an invaluable practical resource that will increase your chances of success with about 3 000 practice tests it will familiarize you with verbal reasoning tests and provide practical strategies for improving your performance key points tips and advice on pretest preparation a variety of familiarization tests for all levels practice tests from major test publishers a self assessment section after each test a succinct guide to writing your cv answers and comprehensive explanations information on test providers and useful links

master the sat ii chemistry subject test and score higher our test experts show you the right way to prepare for this important college exam reas sat ii chemistry test prep covers all chemistry topics to appear on the actual exam including in depth coverage of the laws of chemistry properties of solids gases and liquids chemical reactions and more the book features 6 full length practice sat ii chemistry exams each practice exam question is fully explained to help you better understand the subject material use the book's periodic table of elements for speedy look up of the properties of each element follow up your study with reas proven test taking strategies powerhouse drills and study schedule that get you ready for test day details comprehensive review of every chemistry topic to appear on the sat ii subject test flexible study schedule tailored to your needs packed with proven test tips strategies and advice to help you master the test 6 full length practice sat ii chemistry subject tests each test question is answered in complete detail with easy to follow easy to grasp explanations the book's handy periodic table of elements allows for quick answers on the elements appearing on the exam table of contents about research and education association independent study schedule chapter 1 about the sat ii chemistry subject test about this book about the test how to use this book format of the sat ii chemistry scoring the sat ii chemistry score conversion table studying for the sat ii chemistry test taking tips chapter 2 course review gases gas laws gas mixtures and other physical properties of gases dalton's law of partial pressures avogadro's law the mole concept avogadro's hypothesis chemical compounds and formulas mole concept molecular weight and formula weight equivalent weight chemical composition stoichiometry weight and volume calculations balancing chemical equations calculations based on chemical equations limiting reactant calculations solids phase diagram phase equilibrium properties of liquids density colligative properties of solutions raoult's law and vapor pressure osmotic pressure solution chemistry concentration units equilibrium the law of mass action kinetics and equilibrium le chatelier's principle and chemical equilibrium acid base equilibria definitions of acids and bases ionization of water ph dissociation of weak electrolytes dissociation of polyprotic acids buffers hydrolysis thermodynamics i bond energies some commonly used terms in thermodynamics the first law of thermodynamics enthalpy hess's law of heat summation standard states heat of vaporization and heat of fusion thermodynamics ii entropy the second law of thermodynamics standard entropies and free energies electrochemistry oxidation and reduction electrolytic cells non standard state cell potentials atomic theory atomic weight types of bonds periodic trends electronegativity quantum chemistry basic electron charges components of atomic structure the wave mechanical model subshells and electron configuration double and triple bonds organic chemistry nomenclature and structure alkanes alkenes dienes alkynes alkyl halides cyclic hydrocarbons aromatic hydrocarbons aryl halides ethers and epoxides alcohols and glycols carboxylic acids carboxylic acid derivatives esters amides arenes aldehydes and ketones amines phenols and quinones structural isomerism six practice exams practice test 1 answer key detailed explanations of answers practice test 2 answer key detailed explanations of answers practice test 3 answer key detailed explanations of answers practice test 4 answer key detailed explanations of answers practice test 5 answer key detailed explanations of answers practice test 6 answer key detailed explanations of answers the periodic table excerpt about research education association research education association reas is an organization of educators scientists and engineers specializing in various academic fields founded in 1959 with the purpose of disseminating the most recently developed scientific information to groups in industry government high schools and universities reas has since become a successful and highly respected publisher of study aids test preps handbooks and reference works reas test preparation series includes study guides for all academic levels in almost all disciplines research education association publishes test preps for students who have not yet completed high school as well as high school students preparing to enter college students from countries around the world seeking to attend college in the united states will find the assistance they need in reas

publications for college students seeking advanced degrees re a publishes test preps for many major graduate school admission examinations in a wide variety of disciplines including engineering law and medicine students at every level in every field with every ambition can find what they are looking for among re a s publications while most test preparation books present practice tests that bear little resemblance to the actual exams re a s series presents tests that accurately depict the official exams in both degree of difficulty and types of questions re a s practice tests are always based upon the most recently administered exams and include every type of question that can be expected on the actual exams re a s publications and educational materials are highly regarded and continually receive an unprecedented amount of praise from professionals instructors librarians parents and students our authors are as diverse as the fields represented in the books we publish they are well known in their respective disciplines and serve on the faculties of prestigious high schools colleges and universities throughout the united states and canada chapter 1 about the sat ii chemistry subject test about this book this book provides you with an accurate and complete representation of the sat ii chemistry subject test inside you will find a complete course review designed to provide you with the information and strategies needed to do well on the exam as well as six practice tests based on the actual exam the practice tests contain every type of question that you can expect to appear on the sat ii chemistry test following each test you will find an answer key with detailed explanations designed to help you master the test material about the test who takes the test and what is it used for students planning to attend college take the sat ii chemistry subject test for one of two reasons 1 because it is an admission requirement of the college or university to which they are applying or 2 to demonstrate proficiency in chemistry the sat ii chemistry exam is designed for students who have taken one year of college preparatory chemistry who administers the test the sat ii chemistry subject test is developed by the college board and administered by educational testing service ets the test development process involves the assistance of educators throughout the country and is designed and implemented to ensure that the content and difficulty level of the test are appropriate when should the sat ii chemistry be taken if you are applying to a college that requires subject test scores as part of the admissions process you should take the sat ii chemistry subject test toward the end of your junior year or at the beginning of your senior year if your scores are being used only for placement purposes you may be able to take the test in the spring of your senior year for more information be sure to contact the colleges to which you are applying when and where is the test given the sat ii chemistry subject test is administered five times a year at many locations throughout the country mostly high schools to receive information on upcoming administrations of the exam consult the publication taking the sat ii subject tests which may be obtained from your guidance counselor or by contacting college board sat program p o box 6200 princeton nj 08541 6200 phone 609 771 7600 website collegeboard com is there a registration fee yes there is a registration fee to take the sat ii chemistry consult the publication taking the sat ii subject tests for information on the fee structure financial assistance may be granted in certain situations to find out if you qualify and to register for assistance contact your academic advisor how to use this book what do i study first remember that the sat ii chemistry subject test is designed to test knowledge that has been acquired throughout your education therefore the best way to prepare for the exam is to refresh yourself by thoroughly studying our review material and taking the sample tests provided in this book they will familiarize you with the types of questions directions and format of the sat ii chemistry subject test to begin your studies read over the review and the suggestions for test taking take one of the practice tests to determine your area s of weakness and then restudy the review material focusing on your specific problem areas the course review includes the information you need to know when taking the exam be sure to take the remaining practice tests to further test yourself and become familiar with the format of the sat ii chemistry subject test when should i start studying it is never too early to start studying for the sat ii chemistry test the earlier you begin the more time you will have to sharpen your skills do not procrastinate cramming is not an effective way to study since it does not allow you the time needed to learn the test material the sooner you learn the format of the exam the more comfortable you will be when you take the exam format of the sat ii chemistry the sat ii chemistry is a one hour exam consisting of 85 multiple choice questions the first part of the exam consists of classification questions this question type presents a list of statements or questions that you must match up with a group of choices lettered a through e each choice may be used once more than once or not at all the exam then shifts to relationship analysis questions which you will answer in a specially numbered section of your answer sheet you will have to determine if each of two statements is true or false and if the second statement is a correct explanation of the first the last section is composed

strictly of multiple choice questions with choices lettered a through e material tested the following chart summarizes the distribution of topics covered on the sat ii chemistry subject test topic percentage number of questions atomic molecular structure 25 21 questions states of matter 15 13 questions reaction types 14 12 questions stoichiometry 12 10 questions equilibrium reaction times 7 6 questions thermodynamics 6 5 questions descriptive chemistry 13 11 questions laboratory 8 7 questions the questions on the sat ii chemistry are also grouped into three larger categories according to how they test your understanding of the subject material category definition approximate percentage of test 1 factual recall demonstrating a knowledge and understanding of important concepts and specific information 20 2 application taking a specific principle and applying it to a practical situation 45 3 integration inferring information and drawing conclusions from particular relationships 35 studying for the sat ii chemistry it is very important to choose the time and place for studying that works best for you some students may set aside a certain number of hours every morning to study while others may choose to study at night before going to sleep other students may study during the day while waiting on line or even while eating lunch only you can determine when and where your study time will be most effective be consistent and use your time wisely work out a study routine and stick to it when you take the practice tests try to make your testing conditions as much like the actual test as possible turn your television and radio off and sit down at a quiet desk or table free from distraction make sure to clock yourself with a timer as you complete each practice test score it and thoroughly review the explanations to the questions you answered incorrectly however do not review too much at any one time concentrate on one problem area at a time by reviewing the questions and explanations and by studying our review until you are confident you completely understand the material keep track of your scores by doing so you will be able to gauge your progress and discover general weaknesses in particular sections you should carefully study the reviews that cover your areas of difficulty as this will build your skills in those areas test taking tips although you may be unfamiliar with standardized tests such as the sat ii chemistry subject test there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties become comfortable with the format of the exam when you are practicing to take the sat ii chemistry subject test simulate the conditions under which you will be taking the actual test stay calm and pace yourself after simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual exam with much more confidence know the directions and format for each section of the test familiarizing yourself with the directions and format of the exam will not only save you time but will also ensure that you are familiar enough with the sat ii chemistry subject test to avoid nervousness and the mistakes caused by being nervous do your scratchwork in the margins of the test booklet you will not be given scrap paper during the exam and you may not perform scratchwork on your answer sheet space is provided in your test booklet to do any necessary work or draw diagrams if you are unsure of an answer guess however if you do guess guess wisely use the process of elimination by going through each answer to a question and ruling out as many of the answer choices as possible by eliminating three answer choices you give yourself a fifty fifty chance of answering correctly since there will only be two choices left from which to make your guess mark your answers in the appropriate spaces on the answer sheet fill in the oval that corresponds to your answer darkly completely and neatly you can change your answer but remember to completely erase your old answer any stray lines or unnecessary marks may cause the machine to score your answer incorrectly when you have finished working on a section you may want to go back and check to make sure your answers correspond to the correct questions marking one answer in the wrong space will throw off the rest of your test whether it is graded by machine or by hand you don t have to answer every question you are not penalized if you do not answer every question the only penalty results from answering a question incorrectly try to use the guessing strategy but if you are truly stumped by a question remember that you do not have to answer it work quickly and steadily you have a limited amount of time to work on each section so you need to work quickly and steadily avoid focusing on one problem for too long before the test make sure you know where your test center is well in advance of your test day so you do not get lost on the day of the test on the night before the test gather together the materials you will need the next day your admission ticket two forms of identification e g driver s license student identification card or current alien registration card two no 2 pencils with erasers directions to the test center a watch if you wish but not one that makes noise as it may disturb other test takers on the day of the test you should wake up early after a good night s rest and have breakfast dress comfortably so that you are not distracted by being too hot or too cold while taking the test also plan to arrive at the test center early this will allow you to collect

your thoughts and relax before the test and will also spare you the stress of being late if you arrive after the test begins you will not be admitted to the test center and you will not receive a refund during the test when you arrive at the test center try to find a seat where you feel most comfortable follow all the rules and instructions given by the test supervisor if you do not you risk being dismissed from the test and having your scores canceled once all the test materials are passed out the test instructor will give you directions for filling out your answer sheet fill this sheet out carefully since this information will appear on your score report after the test when you have completed the sat ii chemistry subject test you may hand in your test materials and leave then go home and relax when will i receive my score report and what will it look like you should receive your score report about five weeks after you take the test this report will include your scores percentile ranks and interpretive information
