this work approaches the phenomenon of guild socialism from a new perspective focusing on the douglas social credit movement it explores the key ideas gives an overview of the main theories and traces their subsequent history thoroughly researched it provides original material relevant to the field of political economy this early approach to non equilibrium economics reveals the extent of the incompatibility between capitalist growth economics and social and environmental sustainability epstein takes a fresh look at the organization of labor in medieval towns and emphasizes the predominance of a wage system within them he offers illuminating comment on a wide range of subjects on guilds and guild organization on women and jews in the work force on the value given labor and on the sources of disaffection his book presents a feast of themes in medieval social history david herlihy brown university a new exploration of the secular manuscripts and medieval medical texts associated with the york guild and its members produced in 1486 and subsequently augmented the guild book of the barbers and surgeons of york british library egerton ms 2572 is a unique record of the knowledge ambitions activities and civic relationships maintained by the barbers and surgeons guild over a period of 300 years the manuscript s earliest folios contain images astrological tracts a plague treatise and a bloodletting poem to these were added early modern ordinances and oaths a series of royal portraits and the names of the guild s masters and apprentices it is a rare survival of late medieval medical knowledge placed within a civic context this new multi disciplinary examination of the york guild book presents a comprehensive edition of its content and a detailed study of the creation and use of this fascinating manuscript the york guild book was not owned by any one person but was intended to be representative of the types of manuscripts the guild s members might have individually possessed the guild s commission elevated their manuscript s functional content into something which could be proudly owned and displayed as is demonstrated by the stylishly executed pen and ink drawings two of which are possibly unique through a contextualisation of the form and content of the manuscript the book articulates ideas about material culture and the ceremonial role of secular manuscripts whilst shedding new light on the dissemination and status of medieval medical texts this bold and imaginative book marks out a different route towards understanding the body and its relationship to culture and subjectivity amongst other subjects lyndal roper deals with the nature of masculinity and feminity based upon the handbook of london by the late peter cunningham in guilds of galyndor guild members have the exceptional ability to harness many powerful forces that exist in the world there are four guild disciplines each different in their abilities nevertheless the same in their intentions guild masters serve as peacekeepers protectors of the land even as warriors when the need arises the four guilds are shoguns who have the ability to enhance their physical attributes and senses elementals who are capable of manipulating the basic elements of nature water fire lightning earth and air ethereals who have the ability to manipulate light control their shadows and access an alternate realm using mirrors shamans who are capable of manipulating life auras allowing them to affect plants animals and positively influence human health kendra wyatt garrick and naomi four new guild students will become a team and great friends in the face of tragedy they take on the challenge of saving the life of a fellow student their quest takes them throughout galyndor to new destinations and shows them sights and creatures they did not know existed to overcome the tremendous perils of their undertaking each of them will need to discover new strengths and abilities or their friend will perish first full study devoted to the archery and crossbow guilds which grew up in flanders in the middle ages using recent approaches in economic social labour and institutional history this volume analyses guilds in the period 500 1700 ad the volume undertakes a comparative analysis of the various discursive traditions dealing with the connection between modernity and historicity in southeastern and northern europe reconstructing the ways in which different temporalities produced alternative representations of the past and future of continuity and discontinuity and identity the guild buildings of shakespeare s stratford represent a rare instance of a largely unchanged set of buildings which draw together the threads of the town s civic life with its multi disciplinary perspectives on this remarkable group of buildings this volume provides a comprehensive account of the religious educational legal social and theatrical history of stratford focusing on the sixteenth century and tudor reformation the essays interweave with one another to provide a map of the complex relationships between the buildings and their history opening with an investigation of the guildhall which served as the headquarters of the guild of the holy cross until the tudor reformation the book explores the building s function as a centre of local government and community law and as a place of entertainment and education it is beyond serious doubt that shakespeare was a school boy here and the many visits to the guildhall by professional touring players during the latter half of the sixteenth century may have prompted his acting and playwrighting career the guildhall continues to this day to house a school for the education of secondary level boys the book considers educational provision during the mid sixteenth century as well as examining the interaction between touring players and the everyday politics and social life of stratford at the heart of the volume is archaeological and documentary research which uses up

to date analysis and new dendrochronological investigations to interpret the buildings and their medieval wall paintings as well as proposing a possible location of the school before it transferred to the guildhall together with extensive archival research into the town's court of record which throws light on the commercial and social activities of the period this rich body of research brings us closer to life as it was lived in Shakespeare's Stratford for a long time guilds have been condemned as a major obstacle to economic progress in the pre industrial era this re examination of the role of guilds in the early modern European economy challenges that view by taking into account fresh research on innovation technological change and entrepreneurship leading economic historians argue that industry before the industrial revolution was much more innovative than previous studies have allowed for and explore the different products and production techniques that were launched and developed in this period much of this innovation was fostered by the craft guilds that formed the backbone of industrial production before the rise of the steam engine the book traces the manifold ways in which guilds in a variety of industries in Italy Austria Germany Switzerland France Belgium the Netherlands and Britain helped to create an institutional environment conducive to technological and marketing innovations the social and religious functions of the fraternities are then compared with the parish through a study of the records of two Norfolk market towns Wymondham and Swaffham and two Suffolk villages Bardwell and Cratfield the evidence illuminates the role of the guilds in the social and religious life of the local community along with their position within the parish hierarchy a final chapter studies the fortunes of the guilds during the early years of the reformation up to their dissolution in 1548 jacket this important work in Ruskin studies provides for the first time an authoritative study of Ruskin's Guild of St George it introduces new material that is important in its own right as a significant piece of social history and as a means to re examine Ruskin's guild idea of self sufficient co operative agrarian communities founded on principles of artisanal non mechanised labour creativity and environmental sustainability the remarkable story of William Graham and other companions lost to guild history provides a means to fundamentally transform our understanding of Ruskin's utopianism in 1945 the Irish Catholic Church began a unique relationship with the entertainment industry through an organization known as the Catholic Stage Guild of Ireland this guild whose members included Jimmy O'Dea Noel Purcell Cyril Cusack and Gabriel Fallon acted as a microcosm of twentieth century Ireland dramatically depicting the heartaches and successes of the Irish Catholics this unprecedented study of the Catholic Stage Guild begins an investigation on the contemporary relationship between the Irish Catholic Church and theatre that until now has rarely been examined written for those interested in theatre studies Catholic studies and Irish studies the Catholic Stage Guild of Ireland's persuasion over the theatre population both within and outside the country's borders proposes a story long overdue to be told until now guilds ruled many crafts and trades from the middle ages to the industrial revolution and have always attracted debate and controversy they were sometimes viewed as efficient institutions that guaranteed quality and skills but they also excluded competitors manipulated markets and blocked innovations did the benefits of guilds outweigh their costs analyzing thousands of guilds that dominated European economies from 1000 to 1880 the European Guilds uses vivid examples and clear economic reasoning to answer that question Sheilagh Ogilvie's book features the voices of honorable guild masters underpaid journeymen exploited apprentices shady officials and outraged customers and follows the stories of the vile encroachers women migrants Jews Gypsies bastards and many others desperate to work but hunted down by the guilds as illicit competitors she investigates the benefits of guilds but also shines a light on their dark side guilds sometimes provided important services but they also manipulated markets to profit their members they regulated quality but prevented poor consumers from buying goods cheaply they fostered work skills but denied apprenticeships to outsiders they transmitted useful techniques but blocked innovations that posed a threat guilds existed widely not because they corrected market failures or served the common good but because they benefited two powerful groups guild members and political elites Rabat de la Jaquette the Fisher Body Craftsman's Guild was a national auto design competition sponsored by the Fisher Body division of General Motors this competition was for teenagers to compete for college scholarships by designing and building scale model dream cars held from the 1930s through the 1960s it helped identify and nurture a whole generation of designers and design
